14.FUEL SURCHARGE BASED ON D.O.E. WEEKLY ON HIGHWAY DIESEL PRICES.

Diesel fuel sold in the State of California is different from the fuel sold in other states, due to environmental controls and Federal standards. CARB (California Air Resource Board) mandates that we use a fuel designed to reduce vehicle emissions, thereby improving air quality and public health. This is the only fuel that can be purchased in California. Trucks fueling with CARB fuel pay significantly higher prices per gallon than other states. The following cost per gallon and corresponding percent fuel surcharge is our basis. This surcharge is not negotiable and may vary weekly.

The surcharge will be determined every Monday by calling the Department of Energy (DOE) at (202) 586-6966 and will be assessed on the day the cargo moves.
